IASB ED/2015/10 *Annual Improvements to IFRSs 2014 – 2016 Cycle*

EFRAG TEG agreed to recommend a final comment letter to the EFRAG Board, subject to minor drafting improvements.

EFRAG TEG also approved a feedback statement summarising the input received from constituents and how it has been considered in the drafting of the final comment letter.

IASB ED/2015/8 IFRS Practice Statement: *Application of Materiality to Financial Statements*

After considering the feedback received from constituents, EFRAG TEG agreed to recommend a final comment letter to the EFRAG Board reiterating the views expressed in the draft comment letter in support of the issue of application guidance on materiality in the non-mandatory form of a Practice Statement. EFRAG reiterated its recommendations that:

- the objectives of the guidance address stakeholders other than preparers in order to promote a common understanding of the role and application of materiality;
- the guidance be drafted in a more concise and practical way, and focus on areas where it is acknowledged that judgement on materiality is the most difficult to exercise; and
- the guidance be issued without waiting for the outcome of the forthcoming discussion paper Principles of Disclosure.

IASB Publication *Disclosure Initiative - Amendments to IAS 7*

EFRAG TEG members provided their preliminary views on a draft endorsement advice prepared by EFRAG Secretariat.

No decisions were taken at the meeting and the draft endorsement advice will be brought back for discussion at a future meeting; when the letter from the European Commission requesting advice is received.

IFRS 9 *Financial Instruments*

EFRAG TEG was informed about the topics discussed at the December meeting of the IFRS Transition Resource Group for Impairment of Financial Instruments (ITG). In the discussion, EFRAG TEG exchanged views on the use of discount rates for floating rate financial instruments and the measurement of loss allowances.

EFRAG TEG also discussed the current status of the changes to US GAAP relating to financial instruments. EFRAG TEG assessed that these changes were either already addressed in the endorsement advice or would not have given rise to a different outcome in the endorsement advice, had they been known at the time the endorsement advice was published.

EFRAG Proactive work on a Measurement Bulletin

EFRAG TEG recommended a paper to the EFRAG Board for approval to submit it to ASAF. The paper is designed to demonstrate how the chapter on measurement in the Conceptual Framework Exposure Draft could easily be expanded to meet the concerns raised by EFRAG in its comment letter.

IASB Project *Insurance Contracts*

EFRAG TEG members were provided with an overview of the new insurance contracts Standard by an IASB Board member.

EFRAG 2015 Agenda Consultation

EFRAG TEG finalised its advice to the EFRAG Board on the proactive activities work plan, following the completion of the EFRAG Proactive Agenda consultation. The work plan will be considered by the EFRAG Board at its March meeting.
