Agenda

- 1. Key facts about IFRS 16
- 2. Where we are today
- 3. Essentials on IFRS 16 Leases
- 4. Overview of new disclosure requirements
- 5. How will restatement work?
- 6. Overview of the effect of IFRS 16 on different industry sectors

3

Key Facts About IFRS 16

- Whose financial statements are most affected?
 Expect the following sectors: airlines, retailers, travel & leisure
- When does IFRS 16 become effective?
 Mandatory for annual periods beginning 1.1.2019
 - In Europe, awaiting endorsement by EU Parliament
- Mainly affects Lessees
 - Accounting for Lessors is substantially unchanged
- Convergence with US GAAP
 - IASB and FASB reached same conclusions in many areas (eg recognising all leases on Balance Sheet)
 - Different conclusions with respect to recognition of expenses and presentation in statement of cash flows

Many companies will be affected

% of companies* who disclose off balance sheet leases (IFRS & US GAAP)				
North America	62%			
Europe	47%			
Asia / Pacific	43%			
Africa / Middle East	23%			
Latin America	23%			
Total future minimum lease payments (undiscounted)	USD 2.86 Trillion			
Total Future Minimum Lease Payments (discounted)	USD 2.18 Trillion			

* Listed companies only

A lack of information

	8
uida	ation

· Examples of retail chains that ultimately went into liquidation

		Off balance sheet leases			Off balance	
Retailer	Country	undiscounted	discounted	On balance sheet debt	sheet leases (discounted) as a multiple of on balance sheet debt	
Borders	US	\$2,796M	\$2,152M	\$379M	5.7x	
Circuit City	US	\$4,537M	\$3,293M	\$50M	65.9x	
Clinton Cards	UK	£652M	£525M	£58M	9.1x	
HMV	UK	£1,016M	£809M	£115M	7x	
Praktiker	Germany	€2,268M	€1,776M	€481M	3.7x	
Woolworths	UK	£2,432M	£1,602M	£147M	10.9x	

Based on averaged published financial statements data available in the 5 years before the company entered Chapter 11 (US), liquidation (UK) or bankruptcy (Germany).

Most investors adjust reported figures

9

- Use rough estimation techniques (eg multiple of rent expense)
- Liabilities of individual companies often overstated but some understated

1,022 entities ⁽¹⁾	Reported on balance sheet	If all leases on balance sheet	Common market practice (rent x8)
Long-term (LT) debt (In millions of US dollars)	6,440,942	8,102,729	9,063,971
LT debt to equity	59%	74%	82%

(1) 1,022 IFRS/US GAAP listed entities (excluding banks and insurance companies) each with estimated operating lease liabilities of >\$300M (discounted basis). Data obtained from financial data aggregators that may contain errors; this information should, therefore, be used with a degree of caution.

Definition and Scope

- Definition of a lease under IFRS 16 is broadly retained (compared to IAS 17)
- Are there exceptions?
 - Yes IFRS 16 does not require a lessee to recognise assets and liabilities for:
 - (a) short term leases (ie < 12months)
 - (b) leases of low-value assets (eg laptops etc.)

SIFRS

Recognising leases on balance sheet

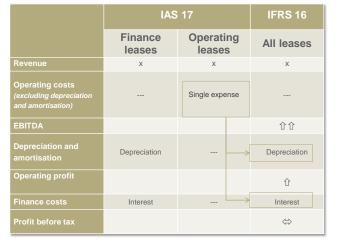

- 12
- IFRS 16 requires a lessee to recognise assets and liabilities arising⁽¹⁾ from all leases on the balance sheet.

	IA	IFRS 16	
	Finance leases	Operating leases	All leases
Assets	≁⋒	- 12	→ ♪ ♪ ♪ ♪ ? ? ? ? ? ? ? ? ? ? ? ? ? ? ?
Liabilities	\$\$		\$\$\$\$\$\$
Off balance sheet rights & obligations		₩ ₩ \$ \$ \$ \$ \$ \$ \$ \$ \$ \$ \$ \$ \$	

Income statement will offer more detail

13

· Lease expense will be split into 2 components

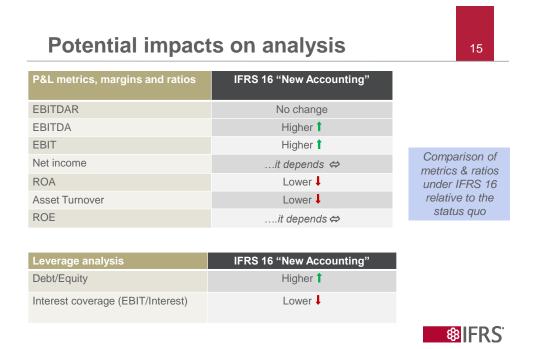

Comparing IFRS 16 to new US GAAP

Potential impacts on analysis (cont'd)

16	

Cash flow metrics	IFRS 16 "New Accounting"	
Cash from operating activities	Higher 1	
Cash from financing activities	Lower 🖡	Comparison of
Net cash flow	No change	metrics & ratios
Unlevered free cash flow*	Higher 🕇	under IFRS 16 relative to the
		status quo

* Assumes that adjustments to calculate free cash flow do not include lease liability principal repayments, which are included within financing activities under IFRS 16.

Intended benefits: Improved comparability

- Recognise assets and liabilities for ALL⁽¹⁾ LEASES
- Measure all lease assets and liabilities in the same way
- Recognise only the rights that are obtained (liabilities that are incurred)
- Company management's operating decisions will be reflected in financial statements

 $^{(1)}$ With the exception of short-term leases and leases of low-value assets

SIFRS

Lease Disclosures

• Disclosure requirements focus on the most relevant information:

INCOME STATEMENT	Breakdown of lease costs (3-4 different items)
CASH FLOW	Total lease cash flow
BALANCE SHEET	Information about ROU assets by class of underlying asset Maturity analysis of undiscounted commitments

• Additional disclosures address on complex features:

Example: Information about Lease Liabilities

20

- All lessees will disclose:
 - discounted lease liabilities (balance sheet)
 - undiscounted maturity analysis (notes)
- When relevant lessees will disclose:
 - additional information about their individual portfolio (eg potential future cashflows in optional periods)

	Lease Liability			itional informati nts in optional p

Some investor FAQs

- What is the discount rate used to measure lease assets and liabilities?
 - Rate in the lease, or in absence of this the entity's incremental borrowing rate
- Can lease contracts be shortened to <12 months to avoid balance sheet recognition?
 - companies will not only include non-cancellable lease payments on balance sheet – they will also have to include optional payments to the extent that they are reasonably certain to extend the lease.

Institutional investors are preparing for this change

31

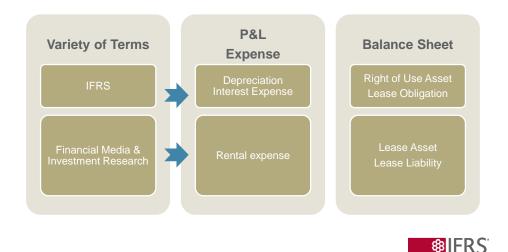

Examples of reactions to the change in research reports

- "Lease Accounting Rule Changes Won't Hit Corporate Ratings"
 - Fitch Ratings, 29 February 2016
- "We do not expect any impact on debt ratings. The ratings agencies have had plenty of time to adjust their approaches and pre-empt this accounting change..."
 - JP Morgan Cazenove note 15 January 2016
- "For most companies, we do not expect a significant impact on EPS"
 - Citigroup research note 14 January 2016
