On 29 April 2022, EFRAG launched a [public consultation](#) on the Exposure Drafts on Draft European Sustainability Reporting Standards. The public consultation is seeking views on the proposed disclosure requirements, including their adequacy, the way the CSRD principles have been implemented and the possible options for phasing-in the implementation.

In this context, EFRAG, EFAA for SMEs and SMEUnited are organising a joint outreach event and invite all interested stakeholders to participate, especially organisations representing SMEs and small- and medium-sized accountancy practices (SMPs). Although the proposed disclosure requirements are not intended to be used by SMEs, contributors will also provide their views on these during the panel discussion, focusing particularly on the consequences for SMEs. The audience will be able to interact and raise questions that will be commented on by the speakers.

Programme will follow in due course.
