TARGETED DISCLOSURE: HOW WOULD IT WORK IN PRACTICE?

BLUEPRINT FOR FUTURE IFRS DISCLOSURES

30 June 2021 – 10:00 to 12:30 (CEST)

[Online Public Webinar](#)

EFRAG with the IFRS Foundation, invites you to a joint outreach event on Wednesday 30 June 2021, from 10:00 to 12:30 to consider European stakeholders' views on the IASB ED *Disclosure Requirements in IFRS Standards—A Pilot Approach*.

SAVE THE DATE FOR OUR JOINT OUTREACH EVENT

The IASB ED proposes a new approach to developing disclosure requirements in IFRS Standards and new disclosure requirements for the Standards on fair value measurement (IFRS 13) and employee benefits (IAS 19).

These proposals would enable companies to enhance their judgement and reduce 'boilerplate' information, giving investors more useful information.

On Wednesday 30 June 2021, from 10:00 to 12:30, the joint event will focus on the views of European stakeholders on the IASB proposals and the related practical issues such as:

- Can a pure objective-based approach work or are minimum disclosure requirements necessary?
- What implementation and application issues arise from applying judgement and meeting the needs of the users?
- Is comparability important?
- How about auditability and enforceability?
- Is the new approach more costly?
- Should the sensitivity analysis in IFRS 13 and IAS 19 be replaced?

EVENT FORMAT

This event will be a public online webinar with **Francoise Flores** (IASB Board member), and EFRAG such as **Chiara del Prete** (EFRAG TEG Chairwoman).

There will also be panel discussions about the proposed internal guidance, as well as the proposed amendments to IFRS 13 and IAS 19, with a wide range of experts on the different topics from EFRAG TEG and EFRAG TEG Working Groups, moderated by **Michael Fechner** (EFRAG Board, Daimler AG).

Audience participation will be possible through polling questions and Q&A sessions.

Please register and watch the webinar [here](#).
