

This paper has been prepared by the EFRAG Secretariat for discussion at a public meeting of EFRAG SR TEG. The paper forms part of an early stage of the development of a potential EFRAG position. Consequently, the paper does not represent the official views of EFRAG or any individual member of the EFRAG SRB or EFRAG SR TEG. The paper is made available to enable the public to follow the discussions in the meeting. Tentative decisions are made in public and reported in the EFRAG Update. EFRAG positions, as approved by the EFRAG SRB, are published as comment letters, discussion or position papers, or in any other form considered appropriate in the circumstances.

## **Overview of Stakeholder and Community Engagement Inputs for Mining Sector**

### **Background and objective**

- 1 As part of development of the [draft] working paper for Mining, a stakeholder engagement process was completed.
- 2 This was to supplement and enrich the writing and [draft] working paper development process due to a lack of subject matter expertise being available within the writing teams.
- 3 An initial workshop on Mining and Coal Mining was held in June 2022 post development of the first [draft] working paper.
- 4 During August and September 2022, a call was issued for interested stakeholders (preparers and preparer organisations, social partners, investment organisations and other interested parties) to join Community Sector Groups including a Community Sector Group for the Mining and Coal Mining Sectors.
- 5 Following the establishment and subscription process an additional two workshops were held in October and November 2022 on Mining and Coal mining inviting Community Sector representatives to attend and provide feedback on work performed on sustainability matters, regulatory and legislative review, sector descriptions and summary level Disclosure Requirements to be included in [draft] working papers for Mining and Coal Mining. A survey was issued in advance of the workshops and live polling was completed during the workshops.
- 6 The objective of this paper is to provide an overview of the subscribers and engagement from Community Sector representatives and other interested stakeholders attending the three workshops held is outlined below.

### **Overview of Stakeholders**
