

This paper has been prepared by the EFRAG Secretariat for discussion at a public meeting of the EFRAG SR TEG. The paper does not represent the official views of EFRAG or any individual member of the EFRAG SRB or EFRAG SR TEG. The paper is made available to enable the public to follow the discussions in the meeting. Tentative decisions are made in public and reported in the EFRAG Update. EFRAG positions, as approved by the EFRAG SRB, are published as comment letters, discussion or position papers, or in any other form considered appropriate in the circumstances.

The attached agenda papers 05-03 and 05-04 are only provided to SR TEG members and are not provided to the public. These documents are strictly confidential and shall not be distributed externally.

## **IG 3: Summary of changes**

### **Cover note**

#### **Objective of the document**

1. The EFRAG Secretariat has analysed and summarised the responses received in the course of the public consultation on the *[Draft] EFRAG IG 3: List of ESRS datapoints*.
2. Following the strategic direction provided by EFRAG SRB the EFRAG Secretariat amended the *[Draft] EFRAG IG 3: List of ESRS datapoint* according to the feedback received.
3. The present document summarises the main changes to the *[Draft] EFRAG IG 3: List of ESRS datapoint* for approval by EFRAG SR TEG.
4. The abbreviation “DP” will be used to represent the term “datapoint” in this document.

#### **Structure of the paper**

5. This comment letter analysis contains:
  - (a) Background;
  - (b) Summary of public comments;
  - (c) Summary of the reaction to the comments;
  - (d) Summary of the main changes to the datapoint list;
  - (e) Screenshot of the updated *[Draft] EFRAG IG 3: List of ESRS datapoints*
  - (f) Next steps;
  - (g) Questions for EFRAG SR TEG;

#### **Background**

6. On 22 December 2023, EFRAG published its first three draft ESRS Implementation Guidance documents with a deadline for public feedback of 2 February 2024. The documents are non-authoritative and support the implementation of ESRS.
7. *The [Draft] EFRAG IG 3: List of ESRS datapoints* presents in an Excel format the complete list of all disclosure requirements in sector agnostic standards. The Excel file covers all the standards, except ESRS 1 *General Requirements*, as it does not set specific disclosures. *The [Draft] EFRAG IG 3: List of ESRS datapoints* is aimed at supporting undertakings in their preparation of the first sustainability statement according to the ESRS.

8. The *[Draft] EFRAG IG 3: List of ESRS datapoints* has been accompanied by an explanatory note, explaining the methodology for implementing the data point list and its relationship with the ESRS Set 1 Draft XBRL Taxonomy.
9. On 20 March 2024, EFRAG SRB approved the strategic direction proposed by the EFRAG Secretariat with regards to the amendments to the *[Draft] EFRAG IG 3: List of ESRS datapoints*.
10. On 21 March 2024, the EFRAG Secretariat presented the strategic direction to EFRAG SR TEG, which acknowledged this suggestion.
11. According to this strategic direction then, the EFRAG Secretariat amended the *[Draft] EFRAG IG 3: List of ESRS datapoints*. The main changes are summarised hereinafter.

### Summary of public comments

12. From the 46 responses received, 15 of which also attached comment letters, the EFRAG Secretariat identified 648 unique comments, which it classified in nine categories:
  - (a) rename DP (25%): respondents suggest changing the name ("label") of the DP, arguing that it did not appropriately reflect the disclosure required by the standards, or pointed out spelling mistakes in the name of the DP.
  - (b) provide more details (19%): respondents suggest providing more details in the DP e.g., a classification, if a DP is only required in certain circumstances ("shall disclose ... where relevant / if applicable / in case of..."), or if certain DPs are alternatives to each other;
  - (c) adjust references (15%): respondents suggest changing references as the DP list has not properly reported the relevant paragraphs or the relevant Application Requirements (AR);
  - (d) add DP (15%): respondents suggest adding a DP not included in the list but which, according to them, would be required by the standards;
  - (e) remove DP (7%): respondents suggest removing a DP as, they argue, the standard does not require such disclosures;
  - (f) adjust phase-in (6%): respondents argue that the phase-in provisions provided require adjustments in the list;
  - (g) classification as voluntary (6%): respondents argue that the proposed classification of a DP as voluntary or mandatory does not appropriately reflect the standards;
  - (h) change data type (4%): respondents suggest changing the data type classification of the DP (i.e. from narrative to monetary);
  - (i) merge DPs (4%): respondents suggest that two or more DPs should be merged.
13. While analysing the comments provided, the EFRAG Secretariat noticed that many respondents used row numbers when referring to DPs. Since this could lead to some confusion if new rows are added or if rows are removed, the EFRAG Secretariat proposed adding a unique identifier to each DP.
14. Overall, the respondents provided useful and detailed comments on specific issues within the datapoint list. No respondent had negative comments on the usefulness of the IG 3 in general. Many respondents explicitly confirmed its usefulness and pointed out further potential improvements, providing detailed feedback.

## Summary of the main changes to the datapoint list

15. Following the strategic direction provided by EFRAG SRB in its meeting on 20 March 2024, the EFRAG Secretariat amended the *[Draft] EFRAG IG 3: List of ESRS datapoints*. The main improvements can be summarised as follows:
  - (a) Implementation of hyperlinks between each DP in the list and the corresponding paragraph in the legal text;
  - (b) Creation of a new column identifying conditional and alternative DPs;
  - (c) Inclusion of more specific references to the phase-in provisions, including the year in which a DP becomes mandatory;
  - (d) Inclusion of a unique identifier for each DP, in order to facilitate the references to specific DPs;
  - (e) Other miscellaneous changes to better align the list of datapoints to the ESRS.

### Implementation of hyperlinks

16. 25% of the total comments received requested the renaming of DPs. While some of these comments pointed out spelling mistakes in the name, the majority argued that the short description did not fully capture the requirements set out by ESRS.
17. In order to avoid overly long DP names, the EFRAG Secretariat decided to implement hyperlinks between each DP and the corresponding paragraph in the ESRS. In this way, the short label could be maintained, while users requiring more information about specific DPs can use the hyperlink to directly jump to the legal text.

### New column for conditional and alternative DPs

18. 19% of the total comments received requested more details regarding the applicability of the DPs.
19. While most requirements in the ESRS apply to every undertaking, some of them only apply in certain circumstances. These DPs often include the wording “if applicable”, “where relevant”, “in case the undertaking ...”, etc.
20. Moreover, sometimes the ESRS provide alternative metrics that, if an undertaking decides to disclose one, is not bound to disclose the others as well.
21. The EFRAG Secretariat added a new column to the excel workbook to identify such conditional and alternative DPs. In this new column, DPs only applicable in certain circumstances are marked with “conditional”, and alternative DPs are marked as “alternative” (e.g. when disclosing the number of employees in ESRS S1.50 a, undertakings may choose to report it at the end of the reporting period or as an average over the reporting period).

### More specific references to the phase-in provisions

22. 6% of the comments received requested more specific references to the phase-in provisions. Most of these comments argued that simply pointing out DPs subject to

phasing-in is only of limited value, and that the specific length of the phasing-in period should be included instead.

23. Other comments, moreover, pointed out incomplete or incorrect references to the phase-in provisions, for example in ESRS S1-8 where the phase-in only applies to employees in non-EEA countries, or where the standard allows for only qualitative disclosures in the first three years.
24. The EFRAG Secretariat reviews the phase-in column and included the length of the phase-in period for each DP and provided more specific references to the scope of the phasing-in provision.

#### *Inclusion of unique identifiers*

25. While analysing the comments provided, the EFRAG Secretariat noticed that many respondents used row numbers when referring to DPs.
26. Since, with the implementation of the feedback received, new DPs have been added and some DPs have been removed, the references to the row numbers may not be the same anymore.
27. For this reason, the EFRAG Secretariat added a new column with a unique identifier for each DP. This identifier provides a reference to the disclosure requirement and a unique number for each DP therein.

#### *Other improvements*

28. The EFRAG Secretariat further improved the *[Draft] EFRAG IG 3: List of ESRS datapoints* by implementing other minor adjustments to the excel workbook, mainly by:
  - (a) Including more specific instruction at the top of each sheet with regards to DPs that have to be reported irrespective of materiality assessment;
  - (b) Including a remark at the top of each sheet that the metrics to be disclosed are not only those explicitly required by ESRS, but also entity-specific ones and those arising from other legislation or standards;
  - (c) Moving the column identifying voluntary DPs closer to the DP name, for better readability;
  - (d) Adding, removing, merging DPs and changing their data type where appropriate;
  - (e) Reclassifying DPs as voluntary or as mandatory, where appropriate; and
  - (f) Reviewing the references to the respective paragraph in the ESRS and to the relevant ARs.
29. All the amendments to the *[Draft] EFRAG IG 3: List of ESRS datapoints* have been made in a way to maintain the consistency with the ESRS Set 1 Draft XBRL Taxonomy.

#### **Summary of the reaction to the comments**

30. Out of the 648 comments received, the EFRAG Secretariat, following the strategic direction provided by EFRAG SRB (as reported in the previous section), 49% of the comments resulted in an amendment of the datapoint list. The remaining 51% was either too general to be implemented, not directly related to specific DPs, or not in line with the strategic direction provided by EFRAG SRB.

31. The table below reports the number of comments that affected the datapoint list and those that did not, broken down by category.

	Change	No change	Total	Percentage
Add DP	32	67	99	15%
Change data type	12	13	25	4%
Classification as voluntary	14	27	41	6%
Merge DPs	10	13	23	4%
Phase-in	36	1	37	6%
Provide more detail	49	71	120	19%
References	58	38	96	15%
Remove DP	23	20	43	7%
Rename DP	81	83	164	25%
<b>Total</b>	<b>315</b>	<b>333</b>	<b>648</b>	<b>100%</b>
<b>Percentage</b>	<b>49%</b>	<b>51%</b>	<b>100%</b>	

32. The category that had the most number of comments not implemented is “rename DP”. Most of these comments in fact, proposed to increase the level of detail in the name of the DP in order to better reflect the legal text. The EFRAG Secretariat, by including hyperlinks between the datapoints and the corresponding paragraph in the legal text, already addressed most of the comments raised in this category.
33. The category “provide more detail” also reports a significant number of comments that, due to their too general nature, were not able to be explicitly addressed with respect to specific datapoints.

### Statistics on the number of datapoints

34. The following tables presents the changes in the number of datapoints, broken down by “shall” and “may” datapoints. Minimum disclosure requirements are presented in a separate table as they shall be applied together with the corresponding Disclosure Requirements in topical ESRS.
35. In total, the current [Draft] EFRAG IG 3: List of ESRS datapoints has 36 less datapoints when compared to the version published for consultation, of which 24 are “shall” DPs and 2 are voluntary.

“Shall” DPs				Voluntary / “may” DPs
ESRS	Irrespective of MA	Subject to MA	Total	
ESRS 2	-6		-6	
ESRS 2 MDR	+2		+2	
E1		-6	-6	
E2				+1

[Draft] EFRAG IG 3: List of ESRS datapoints – Explanatory Note

E3	-1	+1		-1
E4	-1	+3	+2	
E5	-6	-14	-20	
S1		-4	-4	-3
S2		-1	-1	+1
S3		-1	-1	
S4				
G1				
<b>Total</b>	<b>-12</b>	<b>-22</b>	<b>-34</b>	<b>-2</b>

36. The table below presents the count of conditional and alternative datapoints. Most of these datapoints are conditional, i.e. only applicable in certain circumstances ('if relevant', 'where applicable', etc.)

Conditional and alternative datapoints			
ESRS	Conditional	Alternative	Total
ESRS 2	26		26
E1	55		55
E2	8	3	11
E3	2		2
E4	41		41
E5	1		1
S1	26	6	32
S2	11		11
S3	12		12
S4	10		10
G1	8		8
<b>Total</b>	<b>200</b>	<b>9</b>	<b>209</b>

### Screenshot of the updated semi-final EFRAG IG 3: List of ESRS datapoints

37. To give an impression of the structure of the updated *semi-final EFRAG IG 3: List of ESRS datapoints*, a screenshot is provided on the last page for illustrative purposes.

### Next steps

38. After the approval of the *[Draft] EFRAG IG 3: List of ESRS datapoints*, considering further inputs by EFRAG SR TEG, this will be submitted for final approval to the EFRAG SRB.

### Question for EFRAG SR TEG

**Question for EFRAG SR TEG**

Does EFRAG SR TEG approve the amended and improved *[Draft] EFRAG IG 3: List of ESRS datapoints*?

### Agenda papers

39. In addition to this cover note, agenda paper for this session is:
- (a) Agenda paper 05-02\_New Draft EFRAG IG 3 DPs explanatory note
  - (b) Agenda paper 05-03\_New Draft EFRAG IG 3 List of ESRS Data Points
  - (c) Agenda paper 05-04\_Track change\_New Draft EFRAG IG 3 List of ESRS of Data Points

[Draft] EFRAG IG 3: List of ESRS datapoints – Explanatory Note

O25

**DISCLAIMER**  
*Prefinal Draft subject to Approval from EFRAG SRB [still subject to change]*

**INSTRUCTIONS**

- 1) The DPs reported in ESRS E4 are subject to Materiality Assessment.
- 2) With the exception of DPs in IRO1 (E4.IRO-1\_01-16) that are to be disclosed irrespective of the outcome of its materiality assessment [ESRS 1 par. 29], none of these DPs is applicable if the topic is not material.
- 3) Not all DPs are to be reported if the undertaking has not adopted the respective policies, implemented the respective actions or set the respective targets in relation to a sustainability matter that has been assessed to be material [see ESRS 1 par. 33].
- 4) Undertakings or groups **not exceeding on their balance sheet dates the average number of 750 employees during the financial year** (on a consolidated basis where applicable) **may omit all the DPs** reported in ESRS E4 [other than IRO 1] for the first 2 years of preparation of their sustainability statement [see ESRS 1 Appendix C: List of phased-in Disclosure Requirements]. If E4 is material, the undertaking shall nevertheless disclose DPs reported under par. 17-BP2 of ESRS 2.
- 5) Column L identifies DPs subject to phased-in [see Appendix C of ESRS 1].
- 6) Metrics to be disclosed, in addition to the ones explicitly required by ESRS, also include entity-specific ones, as well as those arising from other legislation or standard

ID	ESRS	DR	Paragraph	Related AR	Name	Data Type	Conditional or alternative DP	May [V]	Appendix B - ESRS 2 (SFDR + PILLAR 3 + Benchmark + CL)	Appendix C - ESRS 1 DPs subject to phasing-in provisions applicable to undertaking with less than 750 employees	Appendix C - ESRS 1 DPs subject to phasing-in provisions applicable to all undertakings
